FOREWORD

The *"2009 Statistical Information for Municipalities in the Province of Manitoba"* provides highlights and statistical information compiled from the 2009 consolidated audited financial statements of Manitoba's municipalities. A total of 30 municipalities did not submit their statements by the time of publication and are therefore not included. These municipalities are listed on the Table of Contents page.

Beginning in 2009, municipalities' financial statements are prepared using Public Sector Accounting Board (PSAB) financial reporting standards. The statements are consolidated for the municipality and its owned or controlled organizations, providing a comprehensive picture of the municipality's financial position. As a result, the information is not comparable to that provided in previous years' publications. Key statements to note are the Statement of Financial Position, the Statement of Operations and the Statement of Cash Flows. Also new under PSAB is the reporting of tangible capital assets and the depreciation of the asset over its useful life.

The Executive Summary highlights key municipal information including a comparison of 2001 and 2006 Census information to illustrate population changes, expenditures on services as a percent of total expenditures and per capita, and the composition of tangible capital assets.

The Financial Statistics section groups municipalities by type and population size to facilitate more relevant comparisons between comparable municipalities. A detailed breakdown of consolidated revenues, expenditures, utilities operations, and other data such as taxable assessment, capital assets, and trust and reserve funds is provided indicating that:

Municipalities are in a good financial position. For those municipalities that submitted their financial statements, and on a consolidated basis:

- Municipalities reported $6.6 billion in reserve fund balances and accumulated surplus.
- 85% of municipalities reported an annual surplus, from under $300.00 to over $193 million.
- Debt charges as a percentage of revenue were 2.6%.

Trends in consolidated expenditures of municipalities and their owned or controlled organizations include:

- 61% of smaller municipalities – those with populations less than 1,000 – spend over 20% of budget on general government administration.
- Municipalities with populations of 1,000 to 5,000 spend the most on transportation at 35% of budget, followed by general government administration at 31%.
- Municipalities with populations over 5,000 (excluding Winnipeg) spend the most on transportation at 23% of budget, followed by protective services at 21%.

In total, the 168 municipalities reported tangible capital assets valued at $5.9 billion. Values range from $210,000 to $263 million, excluding Winnipeg. Winnipeg reported tangible capital assets of $4.3 billion.

"2009 Statistical Information for Municipalities in the Province of Manitoba" provides municipalities with information to support program review and serves as an important reference for municipal officials exploring opportunities to enhance effectiveness and efficiency. It is also a useful resource for those interested in better understanding the finances of Manitoba local governments.

AVANT-PROPOS

Le document *2009 – Information statistique – Municipalités de la province du Manitoba* contient des points saillants et de l'information statistique compilée à partir des états financiers consolidés et vérifiés des municipalités du Manitoba pour l'exercice 2009. Trente municipalités n'avaient pas soumis leurs états financiers au moment de la publication du présent document et en sont donc exclues. La liste de ces municipalités figure à la page de la table des matières.

Depuis 2009, les états financiers des municipalités sont préparés selon les normes en matière d'information financière du Conseil sur la comptabilité dans le secteur public. Les états financiers sont consolidés pour inclure la municipalité et les organismes qu'elle possède ou qu'elle dirige, fournissant un portrait détaillé de la situation financière de celle-ci. Par conséquent, l'information du présent document ne peut être comparée à celle des publications antérieures. Les principaux états financiers à noter sont le bilan, l'état des résultats d'exploitation et l'état des flux de trésorerie. Les nouveaux éléments découlant des normes du Conseil sur la comptabilité dans le secteur public comprennent aussi le rapport des immobilisations corporelles et la dépréciation des immobilisations sur leur durée de vie utile.

Le résumé souligne des renseignements municipaux clés, notamment une comparaison entre les données des recensements de 2001 et de 2006 afin d'illustrer les changements de population, les dépenses en services en tant que pourcentage des dépenses totales et par habitant, et la composition des immobilisations corporelles.

La section des statistiques financières regroupe les municipalités par type et grandeur de population afin de permettre des comparaisons plus pertinentes entre des municipalités comparables. Une ventilation détaillée des données consolidées concernant les recettes, les dépenses et les services publics, et d'autres données comme l'évaluation foncière, l'immobilisation, et les fonds fiduciaires et fonds de réserve indiquent que :

Les municipalités sont en bonne position financière. Celles qui ont présenté des états financiers consolidés ont indiqué :

- des soldes de fonds de réserve et d'excédent accumulé de 6,6 milliards de dollars;
- des excédents d'exercice allant de moins de 300 $ à plus de 193 millions de dollars (pour 85 % d'entre elles);
- des frais de la dette publique, exprimés en pourcentage des recettes, de 2,6 %.

Parmi les tendances concernant les dépenses consolidées des municipalités et des organismes qu'elles possèdent ou dirigent, notons que :

- la principale dépense de 61 % des municipalités ayant moins de 1 000 habitants est l'administration publique générale, qui compte pour 20 % du budget;
- la principale dépense des municipalités ayant des populations entre 1 000 et 5 000 habitants est le transport, qui compte pour 35 % du budget, suivie de l'administration publique générale, qui compte pour 31 %;
- la principale dépense des municipalités ayant des populations de plus de 5 000 habitants (excluant Winnipeg) est le transport, qui compte pour 23 % du budget, suivie des services de protection, qui compte pour 21 %.

En tout, les 168 municipalités ont rapporté des immobilisations corporelles d'une valeur de 5,9 milliards de dollars. Excluant Winnipeg, ces valeurs varient de 210 000 $ à 263 millions de dollars. Winnipeg a rapporté des immobilisations corporelles de 4,3 milliards de dollars.

2009 – Information statistique – Municipalités de la province du Manitoba offre aux municipalités de l'information utile pour l'examen des programmes et constitue une référence importante pour les administrateurs municipaux afin d'améliorer l'efficacité et l'efficience. Cette ressource peut également permettre de mieux comprendre les finances des administrations locales du Manitoba.
